

Firenze, 1 / 2020

OPINION CIATTI®
FIRENZE

Opinion Ciatti è un'azienda fiorentina che dagli anni Cinquanta si occupa di soluzioni e complementi d'arredo.

Crediamo che il design sia terreno di sperimentazione e laboratorio di forme.

Creiamo tavoli, sedie e contenitori, ma anche lampade e piccoli complementi: oggetti intensi ed espressivi che raccontano di ricerca e di passione, di una realtà che da quasi settant'anni coniuga qualità e tradizione familiare, la nostra.

Siamo memoria e contemporaneità, radici e innovazione, osserviamo il passato per immaginare il futuro.

Prodotti a catalogo, pezzi unici dal carattere deciso, progetti *made to measure*: realizziamo soluzioni identitarie tanto per gli spazi privati che per quelli contract.

Quando lavoriamo abbiamo un unico grande sogno: realizzare oggetti che siano funzionali ma anche capaci di raccontare storie.

Storie uniche, a volte parallele, a volte divergenti ma legate da un unico filo conduttore.

Storie pensate e vissute a Firenze, per un modo di abitare e di vivere 100% made in Italy.

#myopinionworld

Opinion Ciatti is a Florence based company providing furnishing solutions and accessories since the 50's.

We believe that design should be a fertile ground where new ideas and new shapes are born and tested.

We create tables, chairs and storage objects but also lamps and home accessories: intense and expressive objects that evoke our company's passion for bringing together quality and family tradition, for almost seventy years.

We are a blend of recollections and contemporaneity, tradition and innovation, roots and vision.

We look to the past to imagine our future.

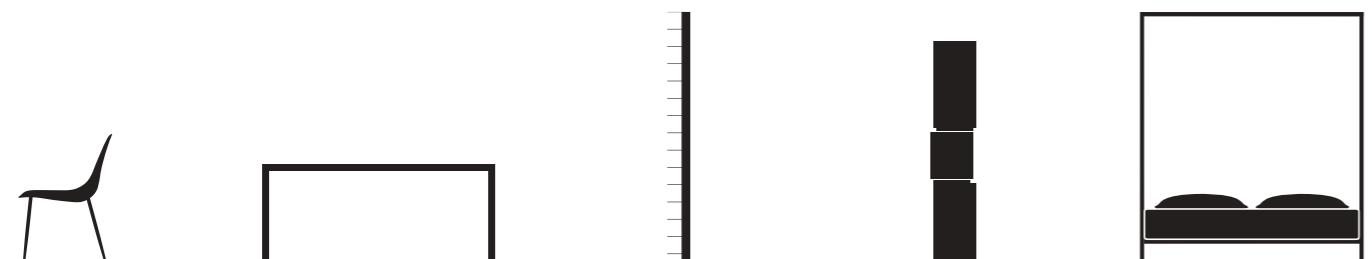

Products from the collection, one-of-a-kind pieces with a strong identity, made to measure projects: we develop distinctive solutions for residential and corporate environments.

We have a dream for our work: we'd like to create objects that are not only functional but also able to tell a story.

Unique stories, at times parallel, sometimes divergent but always linked by a common theme.

Stories conceived and experienced in Florence, for a way of living - 100% Made in Italy.

La nostra storia

Company's history

1950

Tutto nasce da un'intuizione di Rolando Ciatti che, curioso e attento osservatore del mondo che attorno a lui sta così rapidamente cambiando, capisce la necessità di trovare collocazione all'interno delle case degli italiani per quello strano oggetto - la televisione - che da lì a poco avrebbe profondamente cambiato le abitudini della società. Nasce così in Borgo San Frediano nell'Oltrarno fiorentino la Ciatti, azienda che per prima in Italia produce mobili per televisori.

It all begins with an intuition of Rolando Ciatti. As a curious and attentive observer of a world that is changing so fast around him, he understands that a place in the house must be found for that strange, new object - the television - which was about to shake the Italians habit. That's how Ciatti was founded, in Borgo San Frediano, in Florence Oltrarno, as the first company in Italy to produce TV benches.

1984

Una nuova idea, una nuova intuizione. Con visione anticipatrice Flavia Ciatti assieme a Gianni Pareschi, prezioso Art Director, presenta al Salone del Mobile di Milano Ciatti a Tavola, una collezione che con disinvoltura porta all'interno delle case materiali - l'acciaio su tutti - e concetti fino a quel momento appannaggio esclusivo di spazi industriali e collettivi. Sistemi di cucine disaggregate da combinare e collocare liberamente e complementi nei quali funzione pura e praticità si fondono senza soluzione di continuità.

A new idea, a new hunch. Thanks to her innovative vision, Flavia Ciatti together with Gianni Pareschi, her precious Art Director, presents Ciatti a Tavola at the Milan Furniture Fair. This collection confidently brought concepts and materials into homes - steel above all - that up until then were used exclusively for public and industrial spaces. Free-standing kitchen units, which could be combined and allocated according to the use and furnishings accessories that blend functionality and extreme practicality.

2003-2004

Il rigore della forma incontra la sperimentazione più estrema: la famiglia Ciatti incontra Bruno Rainaldi. Insieme danno vita a CCR design, una nuova azienda orientata a sviluppare complementi per la casa. Sotto la direzione artistica di Rainaldi, importanti nomi del design italiano immaginano e realizzano mobili, sedute, specchi e accessori dal carattere fortemente identitario. Nel 2004 Original Ptolomeo, la libreria self standing disegnata da Bruno Rainaldi vince il "Compasso d'Oro". Semplice e rivoluzionario, immediata e nuova, improvvisa come un'intuizione. In breve tempo Ptolomeo diventa il best-seller dell'azienda nonché icona del design contemporaneo.

When strict form meets the most unconventional experimentation in design: the Ciatti family meets Bruno Rainaldi. Together they found CCR design, a new company focused on the development of home objects and accessories. Under the art direction of Mr Rainaldi, important names in Italian design start creating storage objects, chairs, mirrors, all characterized by a strong and bold personality. In 2004, Original Ptolomeo, the free-standing bookshelf by Bruno Rainaldi, wins the "Compasso d'Oro" award. Basic but revolutionary, new and with a great impact, as sudden as an intuition; Ptolomeo soon becomes the company's best-selling item and an icon of contemporary design.

2006

Nuovi confronti, nuove opinioni. In azienda si fa strada la terza generazione. Lapo Ciatti entra in società con l'istinto imprenditoriale di famiglia e la formazione in Industrial Design. Il nuovo ingresso porta energia e vitalità, il sodalizio con Bruno Rainaldi si rafforza e presto si sente la necessità di dare una nuova identità all'azienda: Opinion Ciatti sostituisce CCR, Lapo Ciatti ne è il CEO, Bruno Rainaldi il direttore artistico. Opinion Ciatti come un'opinione, personalissima, sul mondo del design.

New challenges, new opinions. The third generation joins the company. Lapo Ciatti goes into family business bringing his entrepreneurial spirit and a background in Industrial Design. His entry injects a burst of new energy and vitality, the collaboration with Bruno Rainaldi gets stronger and soon Lapo feels that the company needs a new identity. Opinion Ciatti replaces CCR: Lapo Ciatti becomes the CEO, Bruno Rainaldi the Art Director. Opinion Ciatti as a very personal opinion on design.

2011-2013

Visione e passione. Ambizioni e gesti condivisi. Mattoni per costruire solide basi, fissare nuove partenze, ipotizzare orizzonti futuri. Bruno Rainaldi lascia in eredità a Lapo Ciatti il suo enorme bagaglio culturale ed espressivo. Lapo inizia ad occuparsi sia della direzione aziendale che di quella artistica. Nel 2013 Lapo Ciatti firma la sua prima collezione personale. Filo conduttore un equilibrio labile, volutamente indefinito tra ciò che rompe con la tradizione e ciò che trova invece nella memoria il suo significato più puro. Si fa strada l'idea di un viaggio in cui presente e passato si avvicinano, si compenetranano, si confrontano. Partendo dal colore e anticipando ancora una volta le tendenze del mercato, l'azienda incomincia a focalizzarsi sul concetto di personalizzazione.

Vision and passion. Expectations and mutual connections. Bricks that build firm foundations, new outlooks towards new horizons. Bruno Rainaldi leaves his cultural and expressive heritage to Lapo Ciatti, who leads both the management and the artistic side of the business. In 2013, Lapo Ciatti presents his first solo collection. The main theme is a shifting balance, deliberately blurred, in between what disrupts tradition and what makes perfect sense of the past. What emerges is a journey where past and present come together, merging and engaging with one another. Once again Opinion Ciatti anticipates the market trends and starts offering customization, proposing a wide range of colors to personalize its portfolio.

2014 - 2017

I viaggio come metafora: #FollowYourRoots. La terra d'origine, Firenze e la Toscana, è uno dei suoi periodi di massimo fulgore: il Medioevo. Radici come fonte d'ispirazione privilegiata. E' in questo contesto che prendono forma le collezioni #FollowYourRoots. Visioni e ispirazioni di un passato che si fa contemporaneo e che, in un inaspettato déjà vu, trasforma simboli di epoche lontane in oggetti e complementi adatti al vivere del terzo millennio.

Lavorazioni artigianali per pezzi unici, un'attenzione alla personalizzazione che sempre più diventa tratto distintivo dell'azienda. Nasce OC bespoke, un servizio rivolto al contract, ma non solo, per tradurre in realtà tutto ciò che la mente può immaginare.

Nel 2016, anno in cui ricorre il 50° anniversario dell'alluvione che sommerso Firenze, Opinion Ciatti rende omaggio alla propria città, sottolineandone il legame indissolubile. Al Salone viene presentata la prima collezione

di tappeti nata lasciandosi ispirare dalle prospettive che regalano alcuni dei più importanti monumenti fiorentini. A giugno l'azienda è tra gli espositori di *Design on Water*, la collettiva dedicata al design organizzata da LUISAVIAROMA, che segna l'utilizzo inedito dell'Arno come spazio espositivo.

A settembre è Event Supporter di *Wired Next Fest*, il festival dell'innovazione ospitato nell'esclusiva location di Palazzo Vecchio. Giugno segna un'altra tappa importante per Opinion Ciatti: inaugura a Parigi *OFF Paris Seine*, il primo hotel galleggiante della città e il primo progetto di allestimento interno curato da Opinion Ciatti. Pezzi unici appositamente sviluppati e rivisitazioni di modelli arredano le aree comuni e le suite dell'hotel realizzato in collaborazione con Maurizio Galante e Tal Lancman.

Il 2017 si presenta come un anno in cui le novità si fondono con la tradizione. Al Salone del Mobile di Milano accanto ad ampliamenti di gamma ed edizioni speciali trovano spazio nuovi progetti - primo fra tutti un'esclusiva selezione di piccoli oggetti - per un concetto di abitare che ormai abbraccia tutte le aree della casa e non solo. Oltre 300 finiture e materiali a disposizione; una fusione tra tradizione, processi industriali e manodopera artigianale; una scelta vastissima di varianti di prodotto: sono queste le caratteristiche che fanno di Opinion Ciatti, un'azienda del terzo millennio capace di cogliere stimoli e tendenze e di riadattarli secondo il proprio inconfondibile stile e la propria identità.

The journey as a metaphor: #FollowYourRoots. The homeland, Florence and Tuscany, and one of the prime periods of its history: the Middle Age. Roots that become the main source of inspiration for the #FollowYourRoots collections. Visions and inspirations from a past that becomes contemporary and that turns, in an unexpected déjà vu, symbols of bygone times into objects and accessories that are suitable to life in the third millennium. Tailor-made design solutions and the highest craftsmanship for unique pieces are now ones of the main features of the company. OC bespoke project starts as a division addressing the corporate world, but not only, to turn imagination into tangible products.

In 2016, the year of the 50th anniversary of the flood that submerged Florence, Opinion Ciatti pays homage to its homeland, highlighting their unbreakable bond. During the Salone del Mobile, Opinion Ciatti presents its first carpet collection, conceived thanks to the perspectives that some of the most important florentine buildings can give. In June the company joins *Design on Water* by LUISAVIAROMA, a joint show about design that marks the first use of the Arno River as a

conceptual exhibition space. In September Opinion Ciatti is Event Supporter of *Wired Next Fest*, the festival of innovation organized by Wired Italia held in the splendid setting of Palazzo Vecchio.

In June Opinion Ciatti sets another milestone: *OFF Paris Seine* opens in Paris, the city's first floating hotel and the first hospitality project by Opinion Ciatti. Bespoke projects and reinterpretations of collection items furnish the lounges and suites of the hotel. All developed in collaboration with Maurizio Galante and Tal Lancman.

2017 is the year when tradition and innovation came together.

At the Salone del Mobile in Milan, new projects - a line of small size products, among all - find their space together with limited editions extensions of existing ranges and special items; for a concept of living that embrace the whole house and beyond.

More than 300 finishes and materials available, a fusion of tradition, industrial processes and craftsmanship, coupled with a wide choice of product varieties. These features confirm Opinion Ciatti as a company able to grasp ideas and trends and readapt them guided by its unique taste, and without ever losing its distinctive identity.

2018 - 2019

Uno sguardo indietro e mille avanti: prodotti che vengono da lontano e progetti che parlano di futuro.

Opinion Ciatti presenta nel 2018 al Salone del Mobile di Milano una collezione che guarda al

mondo dell'arte, un ritorno alle origini che è allo stesso tempo un cimentarsi con le sfide più innovative.

Tra le novità figura anche Ptolomeo Vino, la trasformazione in scenografica colonna porta bottiglie - nata dai disegni lasciati da Bruno Rainaldi - della libreria Original Ptolomeo. A settembre apre a Parigi *Ducasse sur Seine*, il nuovo ristorante di Alain Ducasse.

Opinion Ciatti è parte del progetto, curando la realizzazione di gran parte degli arredi interni, ancora grazie alla collaborazione con Maurizio Galante e Tal Lancman. Un mix di realizzazioni ad hoc ed esclusive rivisitazioni di prodotti a catalogo, con un'unica fonte d'ispirazione - la Senna - per il primo ristorante ospitato su un bateau mouche completamente elettrico, del pluripremiato chef francese.

Il 2019 si apre all'insegna di Atavica, la capsule collection nata dall'incontro tra Lapo Ciatti e Marcantonio. Una collezione dal forte carattere antropologico che si interroga sul rapporto tra l'uomo e l'ambiente e che riflette sull'importanza degli oggetti nel percorso evolutivo. Un percorso affascinante che ben si inserisce nel quadro concettuale delle novità presentate al Salone del Mobile 2019.

Una collezione in simboli e riflessioni, come l'ha amata definire Lapo Ciatti, che riprende segni e rappresentazioni del passato per trasformarli in chiavi di lettura attraverso cui vivere il presente e immaginare il futuro.

Sfide sempre più alte per un gruppo giovane e affiatato. Una realtà innovativa del panorama del made in Italy pronta a confrontarsi con obiettivi sempre più ambiziosi in un mercato ormai globale ma senza dimenticare quella cura al dettaglio, l'attenzione al gesto creativo e l'alta artigianalità che ne hanno contraddistinto la storia. Il viaggio continua...

One look back, and thousand ahead: products that come from afar, projects that speak of the future.

The collection presented by Opinion Ciatti at the 2018 Salone del Mobile beckons to the world of art, a return to its early years and at the same time facing the most innovative challenges. Among the novelties there is Ptolomeo Vino. Conceived on the drafts left by Bruno Rainaldi, it is the transformation of the famous Original Ptolomeo bookshelf into a scenographic wine rack.

In September Alain Ducasse's new restaurant *Ducasse sur Seine* opens in Paris.

Opinion Ciatti is part of the project, working on the interiors in partnership with Maurizio Galante and Tal Lancman again. A mix of bespoke projects, exclusively reinterpretations of collection items - all with the river Seine as the unique source of inspiration – for the first restaurant of the multi-awarded French chef, situated on the first 100% electric cruise boat.

2019 starts with Atavica, the capsule collection arising from the collaboration between Lapo Ciatti and Marcantonio. The collection with an anthropological approach questions the relationship between humans and their environment and reflects on the importance of objects in evolution. A very fascinating research well integrated into the conceptual framework of the novelties launched during the 2019 Salone del Mobile. A collection in symbols and thoughts, as Lapo Ciatti likes defining it, which recalls instruments, symbols, and representations of the past to turn them into tools that serve to live in the present and build our future.

Opinion Ciatti is a young and close-knit group always ready to face new challenges. It is an innovative brand in made-in-Italy furniture ready to set ambitious goals and take on opportunities offered by a constantly changing global market but without never neglecting the care for detail, the attention for creativity and the craftsmanship that have characterised its history. Our journey goes on...

OC Bespoke

OC Bespoke è un servizio dedicato alle soluzioni su misura, si tratti di progetti completi di interior design o della realizzazione di pezzi singoli. Colori e materiali, finiture e dimensioni, ma anche prodotti e progetti, idee e suggerimenti, articoli fatti su misura e personalizzati. Una fusione tra tradizione, processi industriali e manodopera qualificata, unita a una scelta vastissima di varianti di prodotto. Ascoltare architetti e interior designer, partner commerciali e clienti finali per aiutarli a realizzare quello che la loro mente ha solo iniziato ad immaginare...soluzioni dedicate di design fatto su misura e pezzi unici commissionati. Questo è il significato di contract per noi, questo è OC bespoke!

OC Bespoke est un service dédié aux solutions sur mesure, il s'agit de projets complets de design d'intérieur ou de pièces uniques. Couleurs et matériaux, finitions et dimensions, mais également produits et projets, idées et suggestions, articles sur mesure et personnalisés. Tradition, processus industriels, main d'œuvre qualifiée et une large gamme de variantes de produits se combinent pour incarner notre concept de fourniture de mobilier de collectivité : c'est OC bespoke ! Nous écoutons les architectes et les designers d'intérieur, les partenaires d'affaires et les clients finaux pour les aider à réaliser ce que leur esprit n'a fait que commencer à imaginer...des solutions de design sur mesure et des pièces uniques commandées.

OC Bespoke is a service dedicated to tailor-made solutions, for complete interior design projects as well as single pieces. A variety of colours and materials, finishes and sizes skilfully combined with products, projects, ideas, suggestions, and tailor-made customised articles. Our tradition, industrial processes, experienced personnel, and a wide range of product variants merge together to embody our concept of contract furniture: our unrivalled OC bespoke service. We focus on the needs of architects, interior designers, business partners, and end customers to help them turn their ideas into tangible products... Tailor-made dedicated design solutions and unique pieces commissioned by the client.

OC Bespoke ist ein Service für maßgeschneiderte Lösungen, sowohl bei kompletten Einrichtungen im Objekt- und Privatbereich als auch bei Einzelanfertigungen. Eine Vielzahl von Farben, Materialien, Oberflächen und Größen stehen zur Auswahl und werden individuell den entsprechenden Produkten, Projekten und Ideen angepaßt. Eine Verbindung aus Tradition, industriellen Prozessen und spezialisierten Fachkräften, kombiniert mit einer umfangreichen Auswahl an Produktvarianten. Wir konzentrieren uns auf die Bedürfnisse der Architekten, Planer, Geschäftspartner und Endkunden, um ihre Ideen verwirklichen zu können. Design nach Maß und einzigartige Sonderanfertigungen: das ist OC bespoke!

Una, dieci, cento, mille Mammamia!
Il nome risuona come un'esclamazione
di sorpresa davanti a tanta versatilità.
Infatti Mammamia, la collezione di
sedute disegnata da Marcello Ziliani,
comprende sedute singole o impilabili,
adatte per uso interno o esterno, con o
senza braccioli.
Lucida o opaca, colorata o preziosa,
rivestita in pelle o in tessuto...
potenzialmente infinite varianti per una
sedia che non smette mai di stupire.

One, ten, one hundred, one thousand
Mammamia! The name resounds like
an exclamation of surprise facing such
versatility.
Indeed, Mammamia, the seating collection
designed by Marcello Ziliani, includes single
or stackable chairs, suitable for use indoor
or outdoor, with or without armrests.
Glossy or matt, coloured or embellished,
upholstered with leather or fabric...
a never-ending range of options for a chair
that never ceases to astonish.

ILtavolo è il primo nato degli “essenziali” di Opinion Ciatti, pezzi caratterizzati dall'estrema riconoscibilità delle forme e dalla funzionalità pura, tratti tanto cari all'azienda fiorentina.
Nonostante la silhouette fine e delicata mostra grande forza ed equilibrio, e grazie al numero pressochè infinito di varianti è indicato per tutti i tipi di interni.

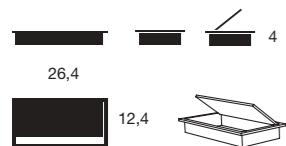

ILtavolo is the firstborn in the “essentials” range by Opinion Ciatti, pieces that are all characterised by highly recognisable shapes and pure functionality, features that are dear to this Florence-based company.
Despite its fine and delicate silhouette, this table shows great strength and balance, and thanks to its infinite personalisation options, it suits all indoor areas.

ILtavolo / Lapo Ciatti, 2013-2015

Dove vuoi, come vuoi, con chi vuoi.

Wherever you like, as you like, with whom you like.

ILtavolo Caffé è così, semplice e adatto ad ogni esigenza, proprio come un caffè!

That's ILtavolo Caffé, a simple and easy table, always appropriate, exactly like a coffee is!

Dove vuoi.

A casa o al bar, dopo un buon pranzo o sul terrazzo a colazione? Qual è il posto migliore per gustarsi un buon caffè?

ILtavolo Caffé grazie alle dimensioni contenute offre il massimo del confort e della fruibilità anche in presenza di spazi ridotti. Per uso indoor ma anche per l'outdoor puo' essere inserito in qualsiasi tipo di ambiente sia residenziale che contract. Cucina o zona living, terrazzo o porticato coperto, senza dimenticarsi di bar e ristoranti.

Wherever you like.

At home or in a café, after a good meal or perhaps at breakfast on your terrace? Which is your favorite place to enjoy a good coffee? ILtavolo Caffé with its small top and its central base has been developed to provide the highest level of comfort and usability even in tiny spaces. For indoor and outdoor use, it is perfect for both residential and contract environments. Kitchen or living room, terrace or veranda, restaurant or café, ILtavolo Caffé can stay wherever you like!

Come vuoi.

C'è chi il caffè lo beve liscio, chi invece non può rinunciare allo zucchero e magari ad un goccio di latte. Si dice che ci siano più di 50 modi in Italia per bere il caffè. ILtavolo Caffé fa anche meglio proponendo quasi infinite varianti date dalla combinazione tra misure, materiali e finiture.

As you like.

Just a standard espresso or with a drop of milk, a delicious cappuccino or an American coffee? They say that there are more than 50 types of coffee served in Italy. ILtavolo Caffé does even better. There are almost infinite variations due to the combinations of sizes, materials and finishes.

Con chi vuoi.

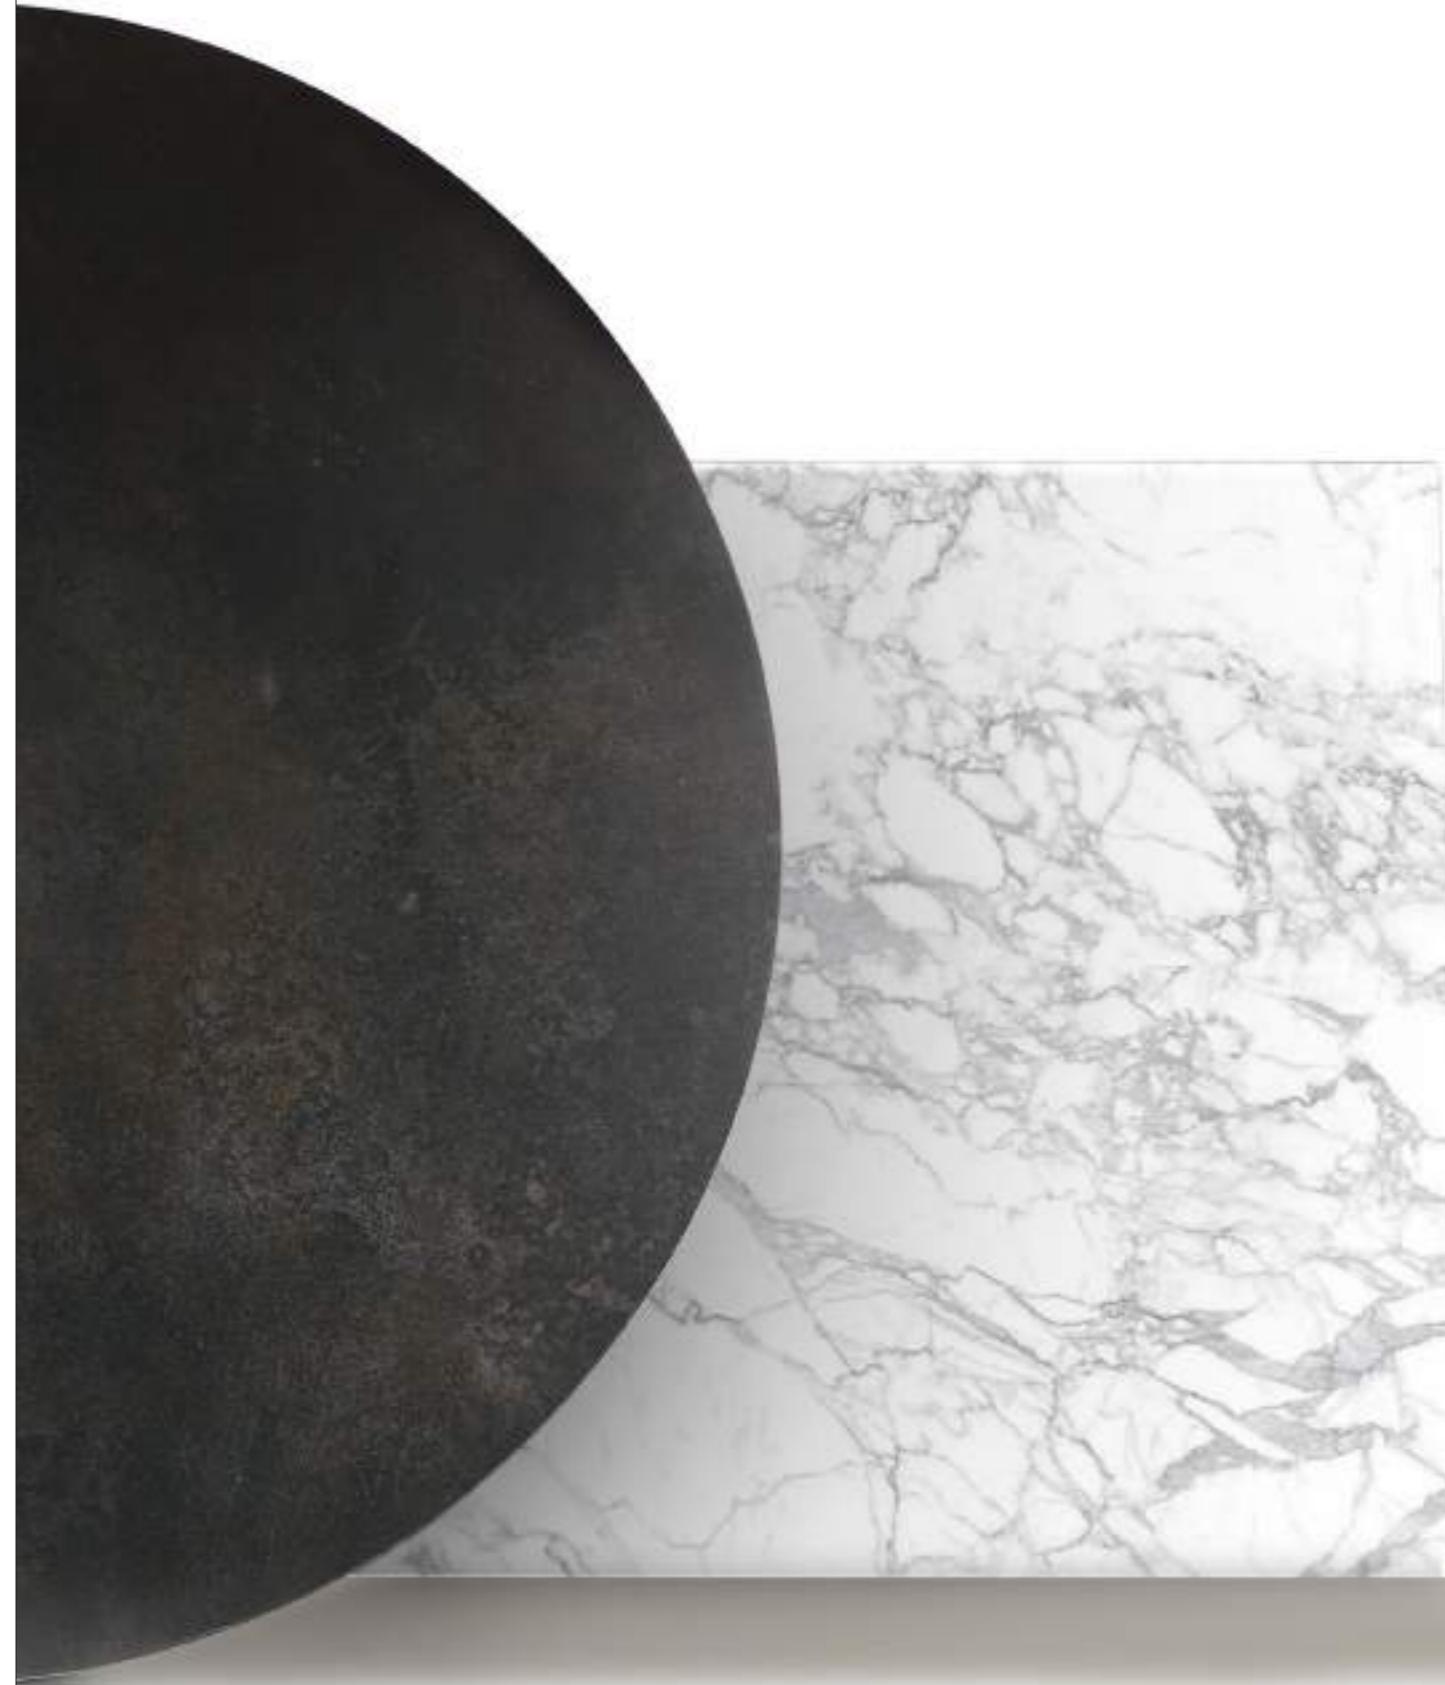

La pausa caffè è sinonimo di socialità o è piuttosto un momento per raccogliere riflessioni e pensieri?

Con la sua linea essenziale e le innumerevoli personalizzazioni ILtavolo Caffé si trova a proprio agio in ogni contesto e con ogni tipo di complemento.

With whom you like.

What does coffee break mean for you? Is it a social gathering or rather a moment to collect your thoughts? Thanks to the essential feature and the uncountable customizations ILtavolo Caffé is at ease in any kind of setting with any kind of furnishing.

Finiture / Finishing / Finitions / Ausführungen

"Sognavo pezzi dagli spigoli sfumati, dai confini labili, indefiniti...pezzi capaci di comunicare, di trasmettere sensazioni - magari non esclusivamente visive - senza dover essere per forza canonicamente perfetti...nobilitare superfici graffiate e contorni ammaccati attraverso l'uso di finiture preziose".

Lapo Ciatti

"I dreamed of pieces with fuzzy edges, with labile and undefined borders...pieces that can communicate, convey feeling – possibly not restricted to visual feeling – without having to be perfect in line with the canons...nobilitateing scratched surfaces and dented outlines by using precious finishes".

Lapo Ciatti

Pile di libri sui tavoli dello studio, così tante da girarci intorno con lo straccio della polvere.
Libri a pile sui tavoli di casa, da spostare per apparecchiare. Una pila sul comodino di sinistra e a terra a fianco del letto.

Qualche libro impilato anche a destra.
Libri impilati tra i vuoti lasciati dai libri ordinati sugli scaffali. Poco gestibile per forma e contenuto, la pila caotica in parte al divano. Trovare il saggio sull'Ordine delle cose comprato lo scorso sabato non è cosa immediata.

Sulla cassapanca dell'ingresso, quella di qualche bisnonna che si è già fatta almeno una decina di traslochi, è cresciuto un bosco selvaggio di pile. Inghiottiti chissà dove intonsi volumi dimenticati. Questo a casa mia.

Questo in tutte le case dove di libri ci si nutre, supporto imprescindibile di vita.
Osservare le pile, restare affascinato nell'immaginarle così alte da sfidarne la stabilità.
Tradurre questa immagine fantastica in oggetto reale. Ptolomeo® atto primo.
Dedicata a colui che, primo, ha raccolto con intelligente passione tutto quanto fino allora scritto senza censura, senza paura.

Piles of books on the studio tables, too many to get round with the duster. Piles of books on all the other tables in the house, that you have to move every time you need to lay the table. A pile on the bedside table to the left of the bed, and another on the floor beside the bed.

Some more on the right. Books piled up in the spaces between others stacked on the book-shelves. Not really manageable the pile on the sofa in all its multiplicity of shape and content. Finding the essay on the Order of Things, bought last Saturday, it's not an easy matter.

On the chest in the entrance hall, belonging to some great grandmother or other and relic of tens of removals, a veritable forest of piles has grown up. Forgotten uncut books swallowed up who knows where. This is my home.

This in all the houses where books, that indispensable prop of life, are cherished. Look at the piles, gaze fascinated at those so high that they seem to mock the law of gravity. Translate this fantastic image into a real object. Ptolomeo® act one. Dedicated to who, first, collected with intelligent passion everything that had ever been written, with no censure, no fear.

"Un bicchiere di buon vino ed il mio libro preferito, grazie!"

I momenti di maggior relax sono spesso immaginati in compagnia di un buon libro e di un ottimo bicchiere di vino. Ptolomeo® Vino, lo scenografico portabottiglie nato dai disegni lasciati da Bruno Rainaldi, è la sintesi di questa immagine: così come la celebre libreria Original Ptolomeo®, ancora una volta il contenitore si fa da parte per esaltare il contenuto, rendendo assolute protagoniste le bottiglie di vino e le loro etichette.

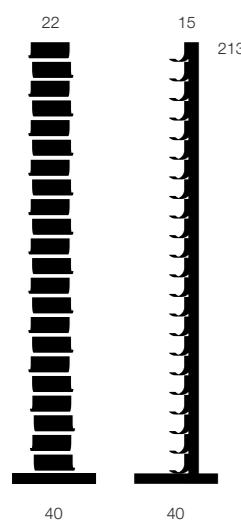

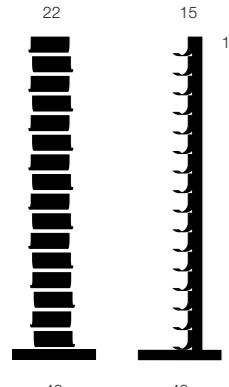

"A glass of good wine and my favourite book, please!"

Very often our moments of greatest relaxation are imagined in the company of a good book and an excellent glass of wine. Ptolomeo® Vino, the scenographic bottle holder conceived on the drafts left by Bruno Rainaldi, is the summary of this image. Like the famous Original Ptolomeo® bookshelf does, once again the container stands aside to enhance its content, making wine bottles and their labels the absolute protagonists.

Ptolomeo® Vino / Bruno Rainaldi, 2010-2018

Freistehendes vertikales Flaschenregal aus Stahl. In der Basis ist die Signatur des Designers angebracht. Zwei Größen.
Für verschiedene Arten von Weinflaschen geeignet. Eine korrekte Lagerung ist gewährleistet.

Note: capacità 8/16/22 bottiglie a seconda della misura.

Yin e yang, "il lato in ombra della collina" (yin) e il lato soleggiato della collina (yang).
La tenebra e il suo opposto: la luce. La notte che si tramuta in giorno, il giorno che si tramuta in notte. L'interno e l'esterno.
Yang si ispira all'antica filosofia taoista e reinterpreta in chiave contemporanea l'archetipo dell'armadio cinese.
Preservare ad ammirare, accogliere ed esporre allo stesso tempo. Un pezzo dalle mille ed imprevedibili personalità, Yang, a definirle sarà il dialogo tra contenuto e contenitore.
Perché ogni cosa ha radice nel suo opposto e nessuna cosa puo' esistere senza la sua metà.

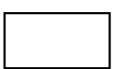

Yin and yang, "the shady side of the hill" (yin) and "the sunny side of the hill" (yang).
Darkness and its opposite: light. Night that becomes daylight and daylight that becomes night. Inside and outside.
YANG is inspired by the ancient Taoist philosophy and reinterprets in a contemporary way the archetype of the Chinese wardrobe.
Preserve and admire, hold and exhibit at the same time. A piece that reveals thousands of different facets, because they are defined by the interaction between content and container.
Because everything stems from its opposite and nothing can exist without its other half.

Yang / Marta Giardini, 2018

Una netta impronta costruttivista e una spontanea citazione al neo-geometrismo.
Questo è Bon-Bon, contenitore in metallo dalle mille possibilità di utilizzo che si snocciola all'interno degli ambienti, assumendo sorprendenti forme piene di carattere. Ovunque ci sia qualcosa da contenere, ovunque si voglia concedere spazio al gesto espressivo.

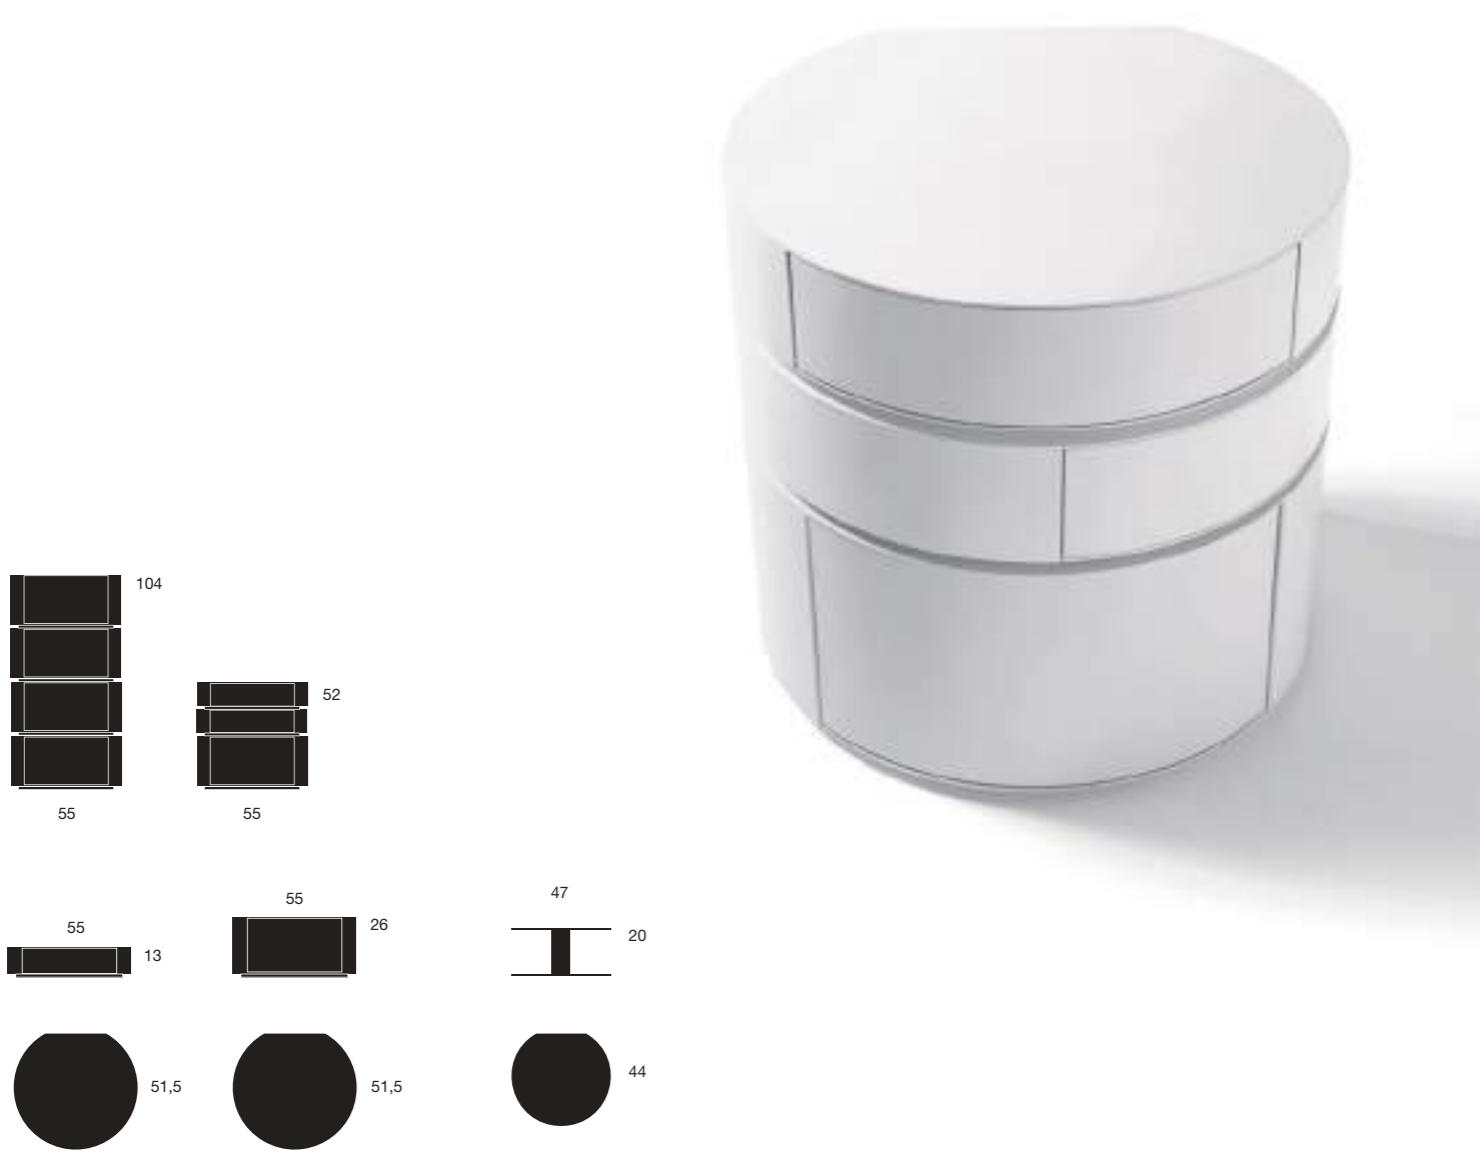

A decidedly constructionist mark and a spontaneous reference to neo-geometrics.
This is Bon-Bon, the metal container with a thousand uses that fits all settings and can be all sorts of shapes rich in character.
Wherever there are things to be contained, wherever space is to be given to the expression.

Bon.Bon / Lapo Ciatti, 2009-2011

Sartorialità in cucina e non solo!

C'est du "sur mesure" et pas seulement!

Axis a Casa

La possibilità di integrare in una unica struttura (una kitchen-station) preparazione, cottura e degustazione del cibo fanno di Axis un protagonista ideale di spazi polifunzionali, monolocali e case fortemente innovative.

Axis in Ufficio

Quando il mangiare un boccone è solo una pausa, breve ma indispensabile, in una lunga giornata di lavoro, una cucina tradizionale sarebbe fuori luogo. Meglio certamente Axis con la sua presenza discreta ma stimolante, a suo agio negli ambienti più riservati, nelle riunioni più concitate.

Le grandi soluzioni Axis

Dal ristorante all'open space al laboratorio del grand gourmet, quando il cibo è creatività fuori dagli schemi, la possibilità di aggregare liberamente le funzioni offre una gamma quasi infinita di soluzioni su misura ad alto contenuto professionale.

Tailoring in the kitchen and more!

Axis at Home

The possibility of integrating in one structure (a kitchen-station) preparation, cooking and tasting the food makes Axis an ideal protagonist of polyfunctional spaces, one-room flats, and strongly innovative homes.

Axis in the office

When eating a snack is only a pause, short but indispensable, in a long day's work, a traditional kitchen would be out of place. Axis is certainly better, with its discreet but stimulating presence, at its ease in the most reserved environments and in the most agitated meetings.

Axis great solutions

From the restaurant to the open space, to the laboratory of the gourmet when food is creativity of unusual dishes, the possibility of freely aggregating the functions offers an almost infinite customized.

Axis à la maison

La possibilité d'intégrer dans une structure unique (presqu'une kitchen-station) préparation, cuisson et dégustation des aliments font de la cousine Axis la protagoniste des espaces multifonctions, des studios et des maisons fortement innovatrices.

Axis au bureau

Quand le fait de manger un morceau n'est qu'une simple pause, brève mais indispensable, au cours d'une longue journée de travail, une cuisine traditionnelle serait déplacée. Axis, à la présence discrète mais stimulante, convient certainement mieux, à son aise dans les ambiances les plus réservées, dans les réunions les plus agitées.

Les grandes solutions Axis

Du restaurant au laboratoire du fin gourmet, en passant par les open space, quand nourriture veut dire créativité sortant des sentiers battus, la possibilité d'intégrer librement les fonctions offre un choix quasi-illimité de solutions sur mesure d'un haut niveau professionnel.

Schneiderei in der Küche und nicht nur!

Axis zu Hause

Axis ist die ideale Protagonistin von multifunktionalen Räumen, Einzimmerwohnungen und sehr innovativ eingerichteten Häusern, da sie in einer einzigen Struktur (quasi eine Kitchen-Station) das Vorbereiten, Kochen und Abschmecken der Mahlzeiten möglich macht.

Axis im Büro

Wenn etwas zu essen, nur eine kurze aber unerlässliche Pause während eines langen Arbeitstages ist, wäre eine traditionelle Küche fehl am Platz. Besser ist bestimmt Axis, ganz unauffällig und dennoch stimulierend, am wohlsten fühlt sie sich in den diskretesten Kreisen sowohl in den aufgeregtesten Sitzungen.

Die großen Axis-Lösungen

Wenn das Kochen über alle Maßen kreativ ist, bietet die Möglichkeit des freien Kombinierens der Funktionen eine Vielzahl von maßgeschneiderten Lösungen auf höchstem Profi-Niveau: im Restaurant, im Open Space, in der "Werkstatt" des Grand Gourmet.

Axis / Marco Duina + Bruno Pozzi, 1986-2012

selezionato ADI Compasso D'ORO, 1987

Wir wissen alle, dass die Entwicklung und die Vertrauenswürdigkeit der verschiedenen Küchenmöbel einen Standard nahe der Perfektion erreicht hat. Unterschränke, Hängeschränke, Säule, Bretter, in ihrer unbegrenzten Zusammenstellung, erlauben die Realisierung von Lösungen äußerster Rationalität. All dies setzt aber einen Standard voraus: eine universale Art, Speisen vorzubereiten und zu kochen.

Heute ist es uns klar geworden, dass die Standards etwa überholt sind. Die Vielfalt der Lebensweisen einerseits und die Aufwertung des Berufes "Kochen" andererseits, bringen eine Nachfrage nach verschiedenen Typen von Küchenmöbeln. Wenn man zu Hause, im Büro, in einem Restaurant oder in einem Open Space kocht, entdeckt man, dass Hängeschranken und Unterschränke allein nicht alle Probleme lösen...

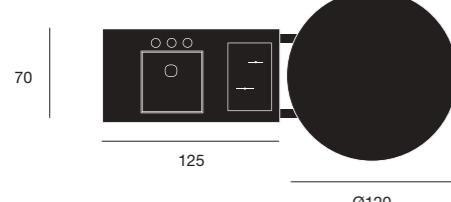

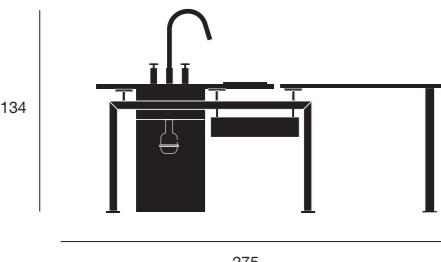

Axis möchte genau diese schwierigen Themen von heute und sogar diejenigen von morgen lösen.

Nous savons tous que le développement et la fiabilité des typologies en matière de meubles de cuisine a atteint des standards très proches de la perfection. Bases, meubles muraux, colonnes, étagères permettent, par leurs combinaisons infinies, la réalisation de solutions extrêmement rationnelles. Mais tout cela presuppose un standard: une façon universelle de préparer et de cuisiner la nourriture. Aujourd'hui nous nous rendons compte de ce que les standards sont des habitudes un peu étroites: la multiplication des styles de vie, d'une part, et la réévaluation "professionnelle" de la cuisine, d'autre part, font émerger des demandes typologiquement différentes. Selon que l'on fasse "la cuisine" à la maison, au bureau, dans un restaurant ou dans les open space, on découvre que les meubles muraux et les bases ne résolvent pas tout...

Axis veut exactement donner une réponse aux thèmes difficiles d'aujourd'hui et même, peut-être, à ceux de demain.

We all know that the development and reliability of kitchen furniture attained standards nearing perfection. Bases, hanging cupboards, columns, shelves, in their endless possibilities of aggregation allow solutions of utmost rationality, but all this presupposes a standard: a universal method of preparing and cooking the food. Nowadays we realize that standards are a rather tight dress: the multiplication of life styles on the one hand, and the "professional" reevaluation of cooking on the other, result in diversified type requirements depending on whether cooking is "made" at home, in the office, in a restaurant, in an open space or in a basement kitchen, and the bases and hanging cupboards are not a solution to all the problems... The intention of Axis is to provide an answer to the difficult questions of today and even to those of tomorrow.

Sappiamo tutti che lo sviluppo e l'affidamento delle tipologie di mobili da cucina ha raggiunto standard molto vicini alla perfezione. Basi, pensili, colonne, mensole nella loro infinita aggregabilità consentono la realizzazione di soluzioni di estrema razionalità. Ma tutto questo presuppone uno standard: un modo universale di preparare e cucinare i cibi. Oggi ci rendiamo conto che gli standard sono abiti un po' stretti: il moltiplicarsi degli stili di vita da un lato e la rivalutazione "professionale" del cucinare dall'altro, fanno emergere domande tipologicamente diverse. Quando si "fa cucina" in casa, in ufficio, in un ristorante o in un open space si scopre che pensili e basi non risolvono proprio tutto... Axis vuole rispondere proprio ai temi difficili di oggi e magari a quelli di domani.

Die Idee Axis stützt sich auf einem grundlegenden Begriff: die einzelnen Funktionselemente der Küche in selbstständige Bestandteile auseinanderzunehmen, die man dann nach Gebrauchsnotwendigkeit auf einer extrem flexiblen Struktur wieder vereinigen kann. Der Planer kann somit die Möglichkeit von besonders fortgeschrittenen Lösungen erforschen und der Endverbraucher kann die Annehmlichkeit eines Vorschlags, welcher mit den alten abgenutzten Standardmustern nichts mehr zu tun hat, schätzen.

Da man mit den verschiedensten Lebenszuständen rechnen muss, ist Axis mit Ausführungen und Materialien äußerster Strenge und Einfachheit hergestellt worden. Materialien, die keine Hauptdarsteller sein wollen, sondern die Professionalität des Nutzers höchst verwerthen wollen.

Axis: qu'est-ce que c'est?

L'hypothèse Axis se base sur un concept élémentaire: décomposer les noyaux fonctionnels de la cuisine en éléments autonomes qui seront ensuite combinés, selon les nécessités utilitaires, sur une structure extrêmement flexible. Le projet peut ainsi explorer les possibilités de solutions particulièrement avancées et le consommateur goûter le plaisir d'une proposition sortant des sentiers battus du standard.

Destiné à opérer dans les conditions ambiantes les plus diverses, Axis a été réalisé avec des finitions et des matériaux d'une rigueur et d'une simplicité extrêmes, des matériaux qui ne veulent pas être protagonistes mais, plutôt, valoriser au maximum la professionnalité de celui qui les utilise.

Axis: what?

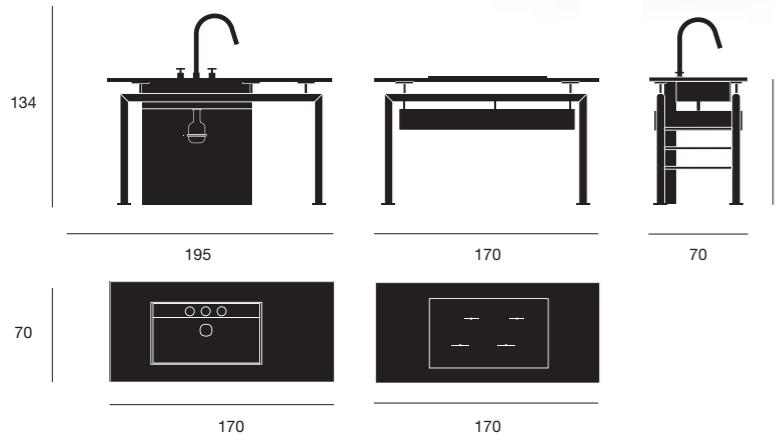

Axis hypothesis is based on an elementary concept: to decompose the principal functional nuclei of the kitchen in independent elements which may later be reaggregated depending on the use to be made, on an extremely flexible structure. The designer can thus explore the possibility of very advanced solutions and the end user can appreciate an agreeable proposal differing from the standard schemes.

Having to operate in the most varied environmental conditions Axis was built with materials and finishings of utmost rigor and simplicity, which do not intend to be protagonists, but wish to enhance the professionalism of their user.

Axis: che cosa?

L'ipotesi Axis si basa su un concetto elementare: scomporre i principali nuclei funzionali della cucina in elementi autonomi e riagggregabili poi, secondo le necessità d'uso, su una struttura estremamente flessibile. Il progettista può così esplorare la possibilità di soluzioni particolarmente avanzate e il consumatore apprezzare la gradevolezza di una proposta che esce dagli schemi un po' logori dello standard.

Dovendo operare nelle condizioni ambientali più diverse, Axis è stata realizzata con finiture e materiali di estremo rigore e semplicità. Materiali che non vogliono essere protagonisti, ma vogliono valorizzare al massimo la professionalità di chi li utilizza.

Axis: wie?

Axis besteht aus zwei Ständern aus Edelstahl. In ihrem oberen Teil haben diese Ständer eine Anzahl von Löchern, die für die Fixierung der verschiedenen Vorrichtungen und der Befestigungsplatten der Arbeitsflächen vorbereitet sind. Es ist außerdem möglich, zwei Ständer zu verbinden, indem man eine Zwischenplatte mit miteinander verbundenen Bügeln verwendet.

Axis: comment?

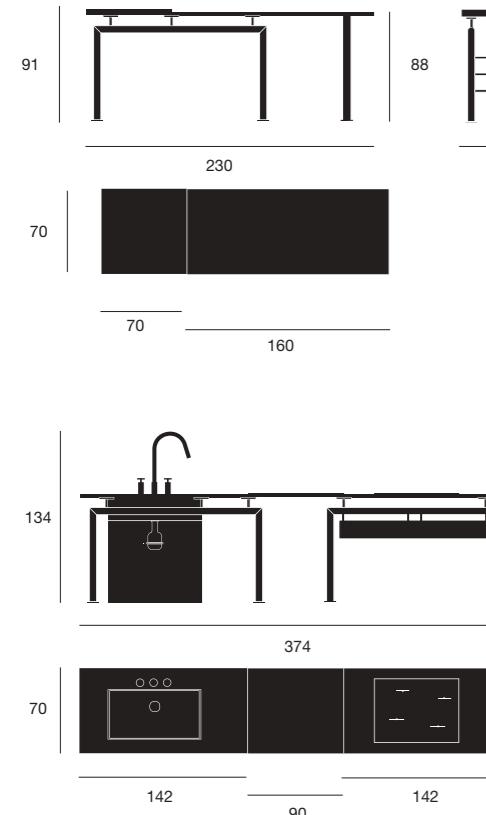

Axis consiste de deux structures portantes en acier inox. Sur la partie supérieure celles-ci présentent une série de trous prédisposés pour la fixation de divers équipements et des plaques de fixation des plans. En outre, il est possible de relier deux structures en utilisant un plan intermédiaire avec des supports fixés les uns contre les autres.

Axis: how?

The presence of Axis consists of two base frames in stainless steel. The upper part of the frame has a number of holes where the tools can be fixed and the fixing plates of the shelves can be inserted. It is also possible to connect two frames together by using an intermediate board with brackets which are fixed one to the other.

Axis come?

La presenza di Axis è costituita da due strutture portanti in acciaio inox. Nella loro parte superiore i portali presentano una serie di fori predisposti per il fissaggio delle varie attrezature e delle piastre di fissaggio dei piani. È possibile inoltre collegare due portali utilizzando un piano intermedio con staffe vincolate all'una e all'altra.

Struktur aus Edelstahl 304 AISI, satiniert oder matt weiß lackiert.

Il tempo non è altro che una successione di frammenti d'infinito.
È da questa riflessione che nasce Senzatempo, un appendiabiti che sfida le leggi della fisica. Un anello in metallo che si piega senza frattura, un anello d'infinito che si intreccia con altri per adeguarsi ad ogni spazio.

Time is nothing but a succession of fragments of infinity.
This is the concept behind Senzatempo, a clothes hanger that defies the laws of physics. A metal ring that bends without breaking. An infinity ring interlaced with other rings to suit any space.

Senzatempo / Lapo Ciatti, 2019

o soffitto in acciaio.

Gli elementi vengono semplicemente inseriti uno nell'altro così da creare composizioni personalizzate.

Finiture: galvanica cromo o oro 24 K.

Un complemento che esalta insieme due dei più importanti materiali utilizzati nel corso dei secoli – il legno della forma e il metallo della sostanza – Ramo è una scultura che interpreta un appendiabiti prima ancora che un riferimento, neanche troppo celato, a quello che probabilmente è stato il primo “attaca-cose” della storia.

Grazie infatti a due ganci - coperti da due dei tre rami principali da cui è composto – viene fissato a parete senza aver quindi bisogno che ci sia una base a sorreggerlo.

Ramo è la reinterpretazione in chiave artistica di un ramo appoggiato al muro che però non dimentica la sua natura funzionale.

An accessory that pays tribute to the two most important materials used over the centuries – wood in its shape and metal in its substance – Ramo is a sculpture that interprets the coat stand and is also a rather clear reference to what was quite possible the first “hanger” in history.

The two hooks - covered by two of the three main branches the hanger is made of - allow it to hang from a wall and therefore does not need to rest on a base.

Ramo artistically reinterprets a branch resting on a wall, which nevertheless does not forget its functional nature.

Una linea tra terra e cielo, una via di fuga,
l'armonico equilibrio yin-yang, anche il ricordo
di una traversata e l'approdo in un porto sicuro.
Simboli e citazioni spontanee per un oggetto
quasi ready-made che si veste di design.
Una corda appesa a cui appendere l'appendibile.
Anticamera, bagno, camera dei ragazzi, camera
da letto, studio, ristorante.

A line between earth and sky, an escape route,
the harmonious yin-yang balance, recollections
of a sea-crossing and getting to a safe harbour.
Spontaneous symbols and references for a piece
of almost ready-made functionality and designer
aesthetics. A hanging rope for hanging whatever
can be hung. Vestibule, bathroom, kids' room,
bedroom, studio, restaurant.

La Cima3 / Lapo Ciatti, 2010-2016

L'apertura di un qualunque cantiere edile è sempre testimone di un gesto consueto come una leggenda tramandata. Muratori, pochi cenni, qualche tavola di abete residuo di un cantiere ormai concluso, una manciata di chiodi. Le tavole macchiate di calce vengono unite tra loro da lunghi chiodi, anche storti, anche arrugginiti, con pochi colpi di martello decisi. Servirà per appendere i loro vestiti. Non ho mai saputo resistere all'osservazione di queste spontanee "opere funzionali" nei tanti cantieri che ho frequentato. Magnifiche nel loro minimalismo, reali e stupefacenti nella loro funzione. Gli abiti a loro appesi, assente il nero della moda, per un immutato neorealismo dopoguerra, appaiono come magistrale styling per uno shooting. Chiodo Schiaccia Chiodo. Un chiodo in fusione, in argento, in oro o nickel nero, semplicemente infilato nel muro.

The opening of any building site is always witness to the usual act of a handed-down legend. Builders, a few gestures, some deal boards left over from a closed building site and a handful of nails. The boards stained with lime are put together with long nails, even crooked or rusty, with a few hammer blows. It will be used to hang the builders' clothes. I could never resist looking at this spontaneous "functional work" in the many building sites I have visited. Magnificent for their real minimalism and amazing for their function.

The hanging clothes, without the fashionable black for an unchanged postwar neo-realism, looks like a masterful styling for a shoot. Nail digs Nail. A nail in fusion, in silver, gold or black nickel, simply inserted into the wall.

Prima ancora del caffè con gli occhi ancora confusi e da quel momento quante volte ancora prima di uscire di casa? E poi, la porta già aperta, le chiavi per chiudere in mano. Un'occhiata in ascensore. Lei anche in macchina ferma al semaforo. Studio, ufficio, negozio, laboratorio, le occasioni diminuiscono, ma prima di ogni incontro cerchi il modo. A volte ricorri alla finestra o al vetro della porta. In ogni bagno, prima e dopo. In qualche vetrina lucida del centro, vigile dal parrucchiere, critico nel camerino, sorridente al sabato sera, furtivamente anche a tavola, mentre ruoti disinvolto la lama del coltello. Non solo vanità. Poco prima di dormire con i pensieri che da dentro affiorano sul volto.

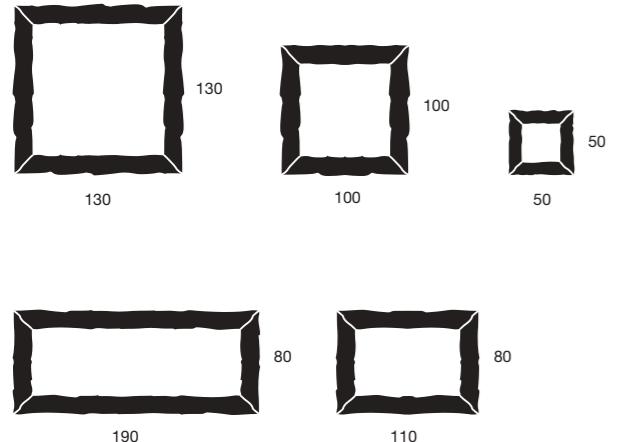

Just before your morning coffee the eyes still confused and from then how many more times before leaving the house? And then, the door already open, the keys ready in your hand. A glance in the elevator. Even in the car when she waits at the traffic lights. In the studio, at the office, at the store, at the laboratory the occasions become less but before every meeting you try to find a way. Sometimes it's the glass of a window or that of a door, in every restroom, before and after. Alert at the hairdresser's, critical in the fitting room. Smiling on a Saturday night. Discretely even at the table casually turning the blade of the knife. It's not just vanity. Shortly before going to bed, your inner thoughts emerge on your face.

Con.tradition è una ricerca ispirata alla tradizione cinese. Il concept si fonda sull'apparente contraddizione tra l'essenzialità dello stile contemporaneo (Contemporary), e la ricchezza della tradizione antica cinese (.tradition).

La ruvidità dell'acciaio si impreziosisce con le finiture, la ricchezza dell'archetipo è trasformata in essenzialità del design fatto di linee. Materiali da costruzione, linguaggio contemporaneo, forme archetipiche diventano una sola cosa nel minimalismo delle linee di Con.tradition.

Con.tradition draws its inspiration from Chinese tradition. The concept is based on the apparent contradiction between the essence of contemporary style (Contemporary) and the richness of the ancient Chinese tradition (.tradition). The roughness of the steel is enriched with the finishes, the richness of the archetype becomes essential in a design made up of lines. Construction materials, the contemporary idiom, archetypal forms become one in the minimalist lines of Con.tradition.

Con.tradition / Sara Bernardi, 2013-2017

La lampada a sospensione Papavero
Raggiante è al contempo un omaggio
alla poesia dei fiori, al loro innato potere
evocativo fatto di colori e odori, e al genio
creativo di Gherardo Frassa con i suoi
inconfondibili fiori in metallo.

Fiori per tutte le stagioni in grado di
superare la caducità del tempo e di
trasformarsi in una lampada dai cui petali,
rigorosamente piegati a mano, partono
"raggi" di luce.

Pezzi unici, disponibili in due misure e
quattro finiture (rosso, bianco, oro o nichel),
che regalano a tutti gli ambienti in cui si
collocano, siano essi spazi contract o
residenziali, un'atmosfera di benessere
e leggerezza, la stessa di un prato fiorito
sotto ad un tiepido sole di primavera.

Papavero Raggiante suspension lamp is a tribute to the poetry of flowers, their innate evocative power made of colours and perfumes and an homage to the creative genius of Gherardo Frassa and his unique Poppies at the same time.

Flowers for all seasons, as their inventor liked to call them, steel flowers that are quite able to overcome the transience and become a lamp whose strictly hand shaped petals dispense "rays" of light.

Unique pieces that are available in two sizes and four finishes (lacquered white or red, 24 k gold or polish nickel) that provide any environment that hosts them, contract or residential, a feeling of wellbeing and lightness, just like a meadow full of flowers under a shy spring sun.

Papavero Raggiante / Gherardo Frassa, 2017

Ci invita a guardare in alto e a rimanere inebriati da tanta bellezza FIRENZE la collezione di tappeti nata dalla collaborazione tra Sebastiano Tosi e Lapo Ciatti.

In un gioco di specchi la magnificenza di alcune delle più belle architetture di Firenze di cui normalmente si può godere solo osservando dal basso viene riportata sulla terra e l'interno delle cupole delle Cappelle Medicee e il soffitto della basilica di San Lorenzo diventano straordinari soggetti di questa serie di 5 tappeti.

Attratti dalla morbidezza dei tappeti, per rispettare la bellezza dell'arte ma forse anche per dominare un vago senso di vertigine, si muoveranno passi leggeri su superfici altrimenti inaccessibili.

The carpet collection FIRENZE is born from the collaboration between Sebastiano Tosi and Lapo Ciatti, inviting us to look higher and to be inebriated by beauty.

In a game of mirrors the magnificence of some of Florence's most beautiful architecture, which can only be enjoyed from below, is brought to the earth and to the interior of the cupolas of the Medicean Chapels and the ceiling of the Basilica of San Lorenzo become extraordinary subjects of this series of 5 carpets.

Attracted by the softness of the carpets, respecting the beauty of art and maybe also to dominate a vague sense of vertigo, light footprints will move on otherwise inaccessible surfaces.
